MD. JOBAYER AHMED

Full Stack Developer

Sirajganj, Bangladesh +8801580320721 jobayerahmed.me07@gmail.com Github LinkedIn Portfolio

CAREER OBJECTIVE

Enthusiastic Full-Stack Developer with hands-on experience in the MERN stack, eager to contribute to meaningful projects while continuously learning and improving. I am passionate about solving problems and taking my skills to the next level in a collaborative and growth-oriented environment.

SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, React.js, Node.js
Databases: MongoDB
Tools & Libraries: Express.js, Tailwind CSS, Daisy UI, Firebase, JWT

EDUCATION

Bachelor's in Finance - Sirajganj Government College, Sirajganj   Season: 2022 - 2023
Higher Secondary (Science) - Govt. Tolaram College, Narayanganj   GPA: 5.00 | 2022

PROJECTS

UrbanNest - An E-commerce platform for selling and buying furniture.
- Secure authentication with Firebase and JWT-protected routes for enhanced security.
- Advanced search and sort features simplify finding and managing furniture listings.
- Role-based management for buyers, sellers, and admins ensures smooth functionality.
- Buyers can browse, wishlist, and order; sellers manage products via a dashboard.
- Admins oversee user roles, monitor activities, and ensure platform integrity.   See Project

ForumVerse - An online forum platform for creating and managing discussions.
- A full-stack forum platform built using React, Tailwind CSS, Express.js, and MongoDB.
- Implements user authentication and secure access through JWT for robust session handling.
- Efficient backend structure ensures seamless data storage, retrieval, and API integration.
- Features real-time interactions like posting, commenting, and dynamic UI updates.   See Project

ElectroFix - A platform for booking and managing electronics repair services.
- A service booking platform built with React, Tailwind CSS, Express.js, and MongoDB.
- Allows users to schedule electronic repair services with real-time booking management.
- The backend ensures seamless data processing, service history, and API integrations.
- Includes JWT-based authentication for secure and personalised user sessions.   See Project

Technologies Used
React, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Stripe, Firebase Authentication

COURSE

Complete Web Development Course With Jhankar Mahbub   Student ID: WEB9-3077
Institution: Programming Hero   Year - 2024

HOBBIES

- Watching sitcoms like Friends and How I Met Your Mother to relax and unwind.
- Socialising with friends and exploring new places.
